Saturday referendum, 19-20 September 2026. Each cell is 10 independent draws, so a share moves in steps of 0.10. The headline table in RESULTS.md pools these six rows at each bid. Advisor frame, \$75,000 household, study region dropped.

Source: logs/referendum. Terra's minimum-Level-3 non-local cell at \$750 is 2 of 9 votes (one draw did not parse), shown as 0.22.
